

Workers 4 ENERGY FOR ALL

FUEL
POVERTY
ACTION

FUEL POVERTY IS A TRADE UNION ISSUE

We are a group of ordinary workers who are sick of greedy energy companies and rip-off bills

While climate change wreaks havoc across the globe, the working class has experienced the fastest decline in living standards in decades. Bills, rents and the cost of food keep going up, while wages have flatlined. Alongside extortionate rents, housing in Britain is the dampest and leakiest in Europe, with thousands of children falling sick from damp homes and mould.

ENERGY FOR ALL DEMANDS:

- Free energy for each household, covering essential needs. Paid for by higher tariffs on luxury energy use, windfall taxes on fossil fuel corporations, and by recouping the £ billions spent daily on subsidising the fossil fuel industry.
- The upgrade of UK housing using safe, non-toxic, non-flammable insulation appropriate to the building. Sound heating systems installed by skilled workers in consultation with residents. And a requirement for all rented property to be kept in good repair without the costs being forced onto tenants.

“ FPA is a rare organisation that is able to join the dots of the climate crisis and fuel poverty, with policy and campaigns rooted in the lived experience of working class people ”

- Sam Mason, Policy Officer, PCS trade union

WHAT CAN UNIONS DO?:

The Energy For All campaign includes over a hundred grassroots organisations and Trade Union branches. By signing our manifesto you are increasing the weight behind the demand for Energy For All.

Affiliate your branch. This helps fund our campaigning and links the campaign to workplace branches. **Advocate for change.** Unions are powerful organisations - together we can really make a difference. Speak in favour of Energy For All at a branch or committee meeting, and take a motion to conference.
